

Solder Protection Tape

Solder Protection Tape

MAT08200250S-1/MAT08200250S-2/MAT08120160S

Q-MANTIC® Solder Protection Tape is made of composite material/crepe paper as its base material, which is coated with the pressure-sensitive organic silicone adhesive. The adhesive tape shows outstanding resistance to high temperature and excellent properties of peel-off and flexibility.

Characteristic

Property Name	General Table of Properties		
Base Material	Composite Material	Composite Material	Composite Material
Basic Thickness (μm)	200	200	120
Total Thickness (μm)	250	250	160
Width (mm)	2-500	2-500	2-980
Length (m)	33	33	50
Adhesive Strength (N/25mm)	6	6	6
Elongation (%)	5	5	3
Max Temperature (°C)	250	180	250
Storage	20°C 65% R.H		

Application

- It is applied for protection in soldering iron.

Packing and Storage

- Min. slitting width: 3mm
- Core ID: 1" /1.5" / 3"
- Storage: Keep in room temperature. Remove package before use. Recommended for use within 6 months
